

Industrial High Pressure Washer

This high-pressure washer is designed for industrial use and effective cleaning. It features a durable construction and a powerful motor.

Product Overview

Industrial High Pressure Washer

This industrial-grade high-pressure washer is engineered for demanding cleaning tasks, featuring a robust copper wire induction motor for long-term reliability. With a powerful 2000W output and a maximum pressure of 150 Bar, it delivers efficient cleaning performance for vehicles, patios, and heavy-duty outdoor surfaces. The unit is designed for convenience and ease of use, incorporating an auto-stop system and a built-in detergent tank to streamline your cleaning workflow.

Performance Specifications

Maximum Pressure

150 Bar

Max Pressure

2200 PSI

Max Pressure

Flow Rate

6 L/min

Electrical Specifications

Input Power

2000 W

Voltage & Frequency

220-240V ~ 50Hz

Construction & Features

Motor Type

Copper wire induction motor

Key Features

Auto stop system, Built-in detergent tank, Wheeled design, Adjustable nozzle
