

Industrial High-Velocity Drum Fan

This high-velocity drum fan is engineered for powerful air circulation in industrial and commercial settings. It features a robust motor, precision-balanced blades, and adjustable tilt for targeted air direction.

Product Overview

Industrial High-Velocity Performance

This industrial high-velocity drum fan is engineered for powerful air circulation in demanding commercial and warehouse environments. Featuring a robust motor and precision-balanced blades, it delivers consistent, high-volume airflow for effective cooling and ventilation. The durable steel construction and protective wire cage ensure long-lasting performance and safety, making it a reliable solution for maintaining a productive work environment.

Technical Specifications

Performance

3 levels

Speed Settings

Fan Type

Drum Fan

Design & Construction

Mobility

Integrated Wheels • Portable Frame

Construction Material

Heavy-duty Steel

Safety Features

Protective Wire Cage, Industrial Grade

Adjustability

Yes
