

Industrial High-Velocity Electric Fan

This high-velocity fan is designed for robust air circulation in large spaces. It features a heavy-duty motor, durable metal construction, and adjustable tilt settings.

Product Overview

Industrial High-Velocity Air Circulation

This industrial-grade electric fan is engineered for robust air circulation in demanding environments. Featuring a heavy-duty motor and durable metal construction, it provides reliable performance for warehouses, workshops, and large-scale facilities. The design includes adjustable tilt settings for precise directional airflow and a sturdy base to ensure stability during operation.

Key Features

Operational Controls

- Adjustable tilt settings
- High-velocity airflow
- Directional ventilation

Safety Standards

Protective Cage, Industrial Grade, Stable Base

Construction

Ideal Applications

Warehouses • Workshops • Large Spaces

Material

Durable metal construction
