

Industrial Hose Reel with Powered Rewind

This heavy-duty hose reel is designed for industrial applications. It features a robust steel frame and a large-capacity spool for storing long lengths of hose, along with a powered rewind mechanism for efficient hose management.

Overview

Industrial Hose Reel with Powered Rewind

This heavy-duty hose reel is engineered for demanding industrial environments where efficiency and reliability are paramount. Featuring a robust steel frame construction, it provides exceptional durability for long-term use. The integrated powered rewind mechanism significantly improves hose management, reducing operator fatigue and saving time during daily operations.

Key Features

Operational Advantages

- Powered rewind mechanism for efficient management
- Large-capacity spool for extended hose lengths
- Designed for various fluid types
- Engineered for high-pressure environments

Build Quality

Heavy-duty, Robust Steel Frame, Industrial Grade

Technical Specifications

Suitable Environments

Industrial • Manufacturing • Maintenance Facilities
