Product Overview

Industrial UFO High Bay Lighting

This LED high bay light is engineered specifically for demanding industrial environments, featuring a robust circular UFO-style design. It provides efficient and uniform illumination, making it an ideal solution for large indoor spaces such as warehouses, factories, and workshops. The integrated heat sink design ensures optimal thermal management, which enhances the lifespan of the LEDs while reducing overall maintenance costs and energy consumption.

Technical Specifications

Power Range	50W - 200W
Design Features	UFO Style, Circular Design, Efficient Heat Dissipation, Suspension Mounting

Application

Ideal Environments

- Warehouses
- Factories
- Workshops
- Large Indoor Spaces
