

Industrial Liquid Storage Jerrycan

High-density polyethylene (HDPE) jerrycan designed for the safe storage and transportation of industrial liquids. It features a robust construction with reinforced corners and a secure screw-top closure.

Product Overview

Industrial-Grade Storage Solution

This high-density polyethylene (HDPE) jerrycan is engineered for the safe storage and transportation of various industrial liquids. Designed with reinforced corners and a secure screw-top closure, it ensures durability and leak prevention in demanding environments. Its stackable design and molded handle facilitate efficient handling and logistics for professional operations.

Physical Properties

Capacity

20 L

Minimum Capacity

25 L

Maximum Capacity

Material

High-density polyethylene (HDPE)

Design & Features

Key Features

Stackable, Reinforced Corners, Molded Handle, Secure Screw-top

Compliance & Usage

Suitable For

- Chemicals
- Solvents
- Industrial Fluids

Industry Standards

Chemical Resistant • Industrial Grade
