

Industrial Machinery Component for General Use

This general machinery component is designed for industrial applications. It features durable construction for longevity and consistent performance.

Product Overview

Professional Hand Tacker

This robust hand tacker is engineered for professional-grade performance in both industrial settings and home or garden projects. Constructed with a durable sheet steel housing, it is designed for longevity and consistent operation under demanding conditions. The inclusion of a soft grip ensures ergonomic comfort, allowing for extended use without fatigue.

Construction & Materials

Housing Material	Sheet steel
Grip Type	Soft grip

Application

Tool Type	Hand Tacker
Intended Use	Industrial, Home, Garden
