

Industrial Machinery Component with Cooling Fan

This machinery component is designed for integration into larger systems or for standalone use. It is constructed from metal and includes a cooling fan for temperature regulation.

Overview

Industrial Machinery Component

This industrial machinery component, model GFF-KT4000, is engineered for robust performance in demanding environments. Featuring a durable metal construction and an integrated cooling fan, it is designed to maintain operational stability under load. This unit is specifically configured for power generation applications, offering reliable output for industrial machinery setups.

Technical Specifications

Rated Power

4 KW

Rated Power

Rated Frequency	50 HZ
Rated Voltage	230 V
Rated Current	17.4 A
Rated Speed	3000 r/min
Power Factor	1

Design & Construction

Cooling System	Front-mounted cooling fan
Construction Material	Metal
Color Scheme	Green, Grey
