

Industrial Mounting Bezel for Circular Components

This mounting bezel is designed for industrial applications, securing circular components such as indicators and gauges. Its durable construction allows for easy installation and provides a clean, finished aesthetic.

Product Overview

Industrial Mounting Bezel

This industrial mounting bezel is engineered to provide a secure and professional finish for circular components such as indicators, switches, and gauges. Designed specifically for integration into apparel and textile machinery, it ensures a clean, stable installation. Its robust construction offers durability in demanding industrial environments.

Technical Specifications

Compatible Components

- Indicators
- Switches
- Gauges

Bezel Shape	Square
Opening Type	Circular
Primary Applications	Apparel Machinery, Textile Machinery, Industrial Control Panels
