

Industrial Overlock Sewing Machine

This high-speed industrial overlock sewing machine is designed for a variety of applications. It features adjustable settings for stitch length and width, allowing for customization based on the fabric and application.

Product Overview

High-Performance Industrial Overlock

This high-speed industrial overlock sewing machine is engineered for durability and consistent performance in demanding environments like garment factories and textile workshops. It features a robust construction that ensures stability during operation, while the multi-thread system creates secure, professional-grade seams. With adjustable settings for stitch length and width, along with a differential feed mechanism to prevent fabric distortion, this machine offers the versatility needed for various industrial applications.

Technical Specifications

Performance Highlights

1 Differential Feed

Fabric Handling

1 Multi-Thread

Seam Security

Model Identifier

TY-GN6000TDF

Key Features

High-Speed, Multi-Thread, Differential Feed, Adjustable Stitch Width, Adjustable Stitch Length

Applications

Suitable Environments

- Garment Factories
- Textile Workshops
- Industrial Sewing Environments
