

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is engineered for high-speed and precise stitching. It ensures durable and professional seams on a variety of materials used in garment, shoe, and accessory manufacturing.

Product Overview

Industrial Overlock Performance

This industrial overlock sewing machine is engineered specifically for high-volume garment, shoe, and accessory manufacturing. Designed for high-speed operation, it delivers precise and durable stitching across a wide range of textile materials. Its robust construction ensures long-term reliability and consistent performance in demanding production environments.

Technical Specifications

Model Series	BSO-752-13
Certifications	CE

Application

Primary Applications

- Garment Manufacturing
- Shoe Production
- Accessory Manufacturing
- Apparel Industry
- Textile Machinery
