

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for garment, shoe, and accessory manufacturing. It utilizes a multi-thread system to provide durable and flexible stitching, with adjustable settings to accommodate different fabric types and thicknesses.

Product Overview

Industrial Overlock Sewing Machine

This industrial overlock sewing machine is engineered for high-volume manufacturing environments, specializing in garments, shoes, and accessories. It features a robust multi-thread system designed to deliver both durable and flexible stitching across a wide range of fabric types and thicknesses. Built for reliability and efficiency, this machine is an essential tool for professional sewing operations requiring consistent, high-quality output.

Technical Capabilities

Stitching System	Multi-thread overlock
Fabric Versatility	Garments, Shoes, Accessories, Various Thicknesses
