

Industrial Packaging Container with Locking Lid

This durable and reliable packaging container is designed for various industrial applications. It features a secure lid with a robust locking mechanism to ensure product integrity during storage and transportation.

Product Overview

Industrial Packaging Solution

This durable industrial packaging container is engineered for reliability in demanding environments. Featuring a robust locking lid mechanism, it ensures maximum product integrity during both storage and transportation. Its cylindrical design optimizes space utilization while allowing for easy handling, making it a versatile choice for powders, granules, and liquids.

Technical Specifications

Material Grade

Food-grade

Durability Features

Impact Resistant, Environmental Resistant

Shape

Cylindrical

Usage

Suitable For

- Powders
- Granules
- Liquids
