

Industrial Pedestal Fan with Adjustable Height

This industrial pedestal fan provides powerful air circulation for demanding environments. The adjustable pedestal allows for customizable height and angle, ensuring optimal air distribution.

Product Overview

Industrial-Grade Air Circulation

The OSCP-30E is a robust industrial-grade pedestal fan engineered for powerful air circulation in demanding environments. Featuring a large diameter blade, it delivers high-volume airflow essential for effective cooling and ventilation in warehouses, workshops, and large commercial spaces. Its adjustable pedestal design ensures customizable height and angle, providing precise control over air distribution.

Performance Metrics

Airflow Volume

30 inches

Blade Diameter

Design & Build

Adjustable Features

- Adjustable height pedestal
- Adjustable tilt angle

Build Quality

Industrial-grade, Heavy-duty, Durable Construction

Application

Recommended Environments

Warehouses • Workshops • Large Commercial Spaces
