

Industrial Pedestal Work Table with Non-Slip Surface

This metallic square table is designed for industrial environments. It features a textured top to prevent slippage and a four-legged pedestal base for enhanced stability.

Product Overview

Industrial Pedestal Work Table

This industrial-grade pedestal work table is engineered for durability and stability in demanding commercial or workshop environments. It features a robust, textured non-slip surface designed to keep components secure during operation. The central pedestal base, supported by a four-legged design, ensures a solid foundation for various workstation tasks.

Design & Construction

Base Configuration	Central pedestal with four-legged support
Surface Finish	Non-slip, Textured, Metallic
Surface Pattern	Repeating circular pattern

Applications

Suitable Environments

- Industrial workshops
- Commercial workstations
- General assembly areas
