Overview

Industrial Planetary Mixer

This industrial planetary mixer is a robust, high-efficiency machine engineered for thorough mixing of various materials. Featuring a specialized blade layout, it ensures quick mixing times and high homogeneity for consistent results. Designed with durability in mind, the unit incorporates an Italian-designed gearbox and is available with heavy-duty anti-wear materials upon request.

Key Features

Standard Equipment

- Automatic greasing system
- Manual emergency opening gate

Design Highlights

Italian Design Gearbox, High Homogeneity, Quick Mixing Time

Configuration Options

Customization Options

Heavy-duty anti-wear material • Skip version available
