

# Industrial Plastic Sheet and Pipe Crusher

This plastic crusher efficiently crushes various soft and hard plastics. Its design allows for easy disassembly, cleaning, and maintenance, while ensuring low electricity consumption, durability, and minimal noise.

## Product Overview

### Industrial High-Efficiency Plastic Crusher

This industrial-grade crusher is engineered for the efficient size reduction of diverse soft and hard plastic materials. Featuring a robust, durable construction with low-noise operation, it is designed for ease of disassembly, maintenance, and cleaning. It serves as an essential solution for recycling applications, offering reliable performance with high energy efficiency.

## Performance

### Performance Highlights

**1 Continuous**  
Operation

**2 Easy**  
Maintenance

## Compatibility

### Compatible Materials

- PET (Bottles, labels, caps)
- PE (Films, agricultural bags, pipes)
- PP (Woven bags, drums, pallets, baskets)
- PVC (Pipes, profiles, frames, curtains)
- Engineering Plastics (PC, ABS, Nylon)
- Rubber and Synthetic Leather
- Electronics housings (TV shells, keyboards, mice)

## Equipment Features

### Key Machine Features

Heavy-duty, Low Noise, Low Energy Consumption, Easy Maintenance, High Efficiency
