

Industrial Polishing Machine

This machine is used for polishing nails, craft carvings, and molds. It features variable speed control and an ergonomic handpiece for comfortable operation.

Product Overview

Industrial Polishing Machine

This precision industrial polishing machine is designed to handle a wide range of tasks, from delicate craft carving to demanding mould polishing. It features variable speed control for optimal performance across different materials and includes an ergonomic handpiece for comfortable, extended use. With a durable construction and an included foot pedal for hands-free speed adjustment, this unit is built for reliability in professional environments.

Applications

Primary Applications

Nail Care, Craft Carving, Denture Polishing, Artificial Limb Polishing, Mould Polishing

Features

Control Features

- Variable speed control
- Ergonomic handpiece design
- Foot pedal for hands-free operation
