Overview

Industrial Position Indicator Switch

This industrial position indicator switch is designed for reliable control circuit management in demanding environments. Featuring a robust construction with zinc alloy and high-grade anti-flame plastic, it ensures longevity and safety. The switch is equipped with special silver alloy contacts for superior electrical erosion resistance, making it ideal for interlocking and signal control in industrial machinery and distribution cabinets.

Electrical Specifications

Rated Insulation Voltage	AC 600V (50Hz/60Hz)
Conventional Heating Current	10 A
Insulation Resistance	e5M $\text{\textcircled{C}}$
Contact Resistance	d2 $\text{\textcircled{C}}$
Pf Withstand Voltage	AC 2.5KV/min

Mechanical & Operational

Mechanical Life

Type	Cycles
Pushbutton	1000000
Selector Switch	500000

Electrical Life

Type	Cycles
Pushbutton	500000
Selector Switch	250000

Brightness	60 cd/m 2
------------	--------------
