

# Industrial Power Socket

This industrial power socket provides a reliable connection for industrial equipment. It is rated to IP44 for protection against water splashes and conforms to IEC60309 standards.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Power Solutions

These industrial power sockets are engineered for reliability and safety in demanding environments. Built to comply with international IEC60309 standards, they provide a secure and stable connection for industrial equipment. The design features a robust construction suitable for various commercial and industrial applications.

## Technical Specifications

### Protection Degree

IP44

### Model Names

EPL-3131-4, EPL-3131, EPL-3141

### Standard

IEC60309

### Poles

2P+E

### Rated Current

16A/32A

### Rated Voltage

110V-130V

### Earth Contact Position

4H
