

Industrial Sewing Machine for Apparel and Accessories

This industrial sewing machine is designed for garment, shoe, and accessory manufacturing. It features a flatbed work surface, electronic control panel, and a high-speed motor for efficient stitching.

Product Overview

High-Efficiency Industrial Sewing Solution

This industrial sewing machine is engineered specifically for the demanding environments of garment, shoe, and accessory manufacturing. It features a robust flatbed work surface and an advanced electronic control panel for precise operation. Equipped with a high-speed motor, it delivers consistent, efficient stitching performance across a wide variety of fabrics and materials used in textile production.

Technical Specifications

Key Features

- High-speed motor for efficiency
- Electronic control panel
- Flatbed work surface
- Integrated thread stand
- Built-in bobbin winder
- Foot pedal control

Machine Type	Industrial Flatbed Sewing Machine
Primary Applications	Garment Manufacturing, Shoe Production, Accessories, Textile Production
