

Industrial Sewing Machine for Apparel and Shoe Manufacturing

This industrial sewing machine is designed for manufacturing garments, shoes, and accessories. It features a robust construction for high-volume production, providing precise stitching and efficient operation.

Product Overview

Industrial Precision Sewing

This industrial sewing machine is engineered specifically for the high-volume demands of apparel and shoe manufacturing. Built with a robust construction, it ensures reliability and consistent performance during continuous operation. Its design prioritizes precise stitching and operational efficiency, making it a versatile asset for diverse textile and leather applications.

Technical Specifications

Build Quality

Robust • High-Volume Ready

Model Number

TY-GN6000-7D

Primary Applications

Garment Manufacturing, Shoe Manufacturing, Accessory Production
