

Industrial Sewing Machine for Garments and Footwear

This industrial sewing machine is designed for manufacturing garments, shoes, and accessories. It features a high-speed stitching mechanism and precise material handling capabilities.

Product Overview

Industrial Sewing Solution

This industrial sewing machine is engineered specifically for the demanding requirements of garment, footwear, and accessory manufacturing. Built for high-speed stitching and precise material handling, it ensures consistent quality in heavy-duty production environments. Its robust design offers the reliability needed for continuous operation, making it an essential asset for professional manufacturing facilities.

Technical Specifications

Model Identifier	GK31030
Primary Applications	Garment Manufacturing, Footwear Production, Accessory Assembly

Performance Features

Key Performance Metrics

1 High-Speed
Stitching Mechanism
