

# Industrial Sewing Machine for Garments and Shoes

This industrial sewing machine is designed for manufacturing garments, shoes, and accessories. It features a digital control panel, integrated oil reservoir, and adjustable stitch length for versatile sewing operations.

## Overview

### Professional Industrial Sewing Solution

This industrial sewing machine is engineered for high-performance manufacturing of garments, shoes, and accessories. Featuring a robust mechanical structure, it is designed to handle heavy-duty applications with ease, ensuring durability and consistent output. The integration of a digital control panel and precise needle positioning allows operators to achieve high-quality results across various materials, including leather, canvas, and synthetic fabrics.

## Technical Specifications

Material Compatibility	Leather, Canvas, Synthetic Fabrics
Control System	Digital control panel for precise adjustments
Needle Positioning	Yes
Stitch Length	Adjustable

## Maintenance

Lubrication System	Integrated oil reservoir with visible level indicator
