

Industrial Sewing Machine for Garments and Shoes

This high-speed industrial sewing machine is designed for manufacturing garments, shoes, and accessories. It offers precise stitching and efficient operation for various materials.

Overview

High-Performance Industrial Sewing Solution

This high-speed industrial sewing machine is engineered specifically for the rigorous demands of garment, shoe, and accessory manufacturing. Designed for both mass production and intricate detailing, it delivers precise stitching and reliable operation. Its robust construction ensures consistent performance and durability within demanding industrial work environments.

Technical Specifications

Application Suitability

- Garment manufacturing
- Shoe production
- Accessory fabrication

Model Identifier	BSL-9000-8
Certifications	CE
