

Industrial Sewing Machine for Garments and Shoes

This high-speed industrial sewing machine is designed for manufacturing garments, shoes, and accessories. It features a digital control panel for precise stitch adjustments and automatic thread trimming.

Overview

High-Performance Industrial Sewing Solution

This high-speed industrial sewing machine is engineered specifically for the rigorous demands of garment, shoe, and accessory manufacturing. It features an advanced digital control panel for precise stitch adjustments and automatic thread trimming to streamline production workflows. Built for continuous operation, this machine offers adjustable sewing speed and exceptional durability, making it a reliable asset for various fabric and material applications.

Technical Specifications

Model Number	BSL-9000-9
Compliance & Certifications	CE Certified

Key Features

Core Capabilities

- Automatic thread trimming
- Digital control panel interface
- Adjustable sewing speed
- Continuous operation capability

Applications

Suitable Industries

Garment Manufacturing • Footwear Production • Accessory Manufacturing
