

Industrial Sewing Machine for Garments and Shoes

This industrial sewing machine is designed for garment, shoe, and accessory manufacturing. It features adjustable settings for various fabric types and thicknesses.

Product Overview

Industrial Sewing Solution

This industrial sewing machine is engineered specifically for the rigorous demands of garment, shoe, and accessory manufacturing. Featuring a robust construction, it offers high-precision stitching capabilities suitable for professional tailoring environments. The machine includes adjustable settings to accommodate a wide range of fabric types and thicknesses, ensuring versatility and reliability in high-volume production settings.

Model Identifier	BSL-9000
Certifications	CE

Technical Specifications

Primary Applications

- Garment manufacturing
- Shoe production
- Accessory creation
- Professional tailoring

Construction Type

Heavy-duty • Industrial Grade

Key Performance Features

- Precise stitching control
- Adjustable settings for fabric thickness
- High-durability components
