

Industrial Sewing Machine for Heavy-Duty Textiles

This industrial sewing machine is designed for heavy-duty textile applications. It features a high-speed motor, adjustable stitch length, and robust construction for durability and precision stitching.

Product Overview

Industrial Heavy-Duty Sewing Solution

This industrial sewing machine is engineered specifically for heavy-duty textile applications, ensuring both durability and precision. Featuring a high-speed motor and an intuitive digital control panel, it allows for seamless adjustment of stitch lengths and operational speeds. Its robust construction makes it a reliable asset for various garment production requirements and complex fabric handling.

Technical Specifications

Performance Highlights

100 mm

Stitch Length Efficiency

Model ID	BS20E-100
Operational Features	High-speed motor, Digital control panel, Adjustable stitch length, Heavy-duty construction

Applications

Compatible Fabrics

- Heavy-duty textiles
- General garment production
