

Industrial Sewing Machine for Heavy Fabrics

This industrial sewing machine is designed for heavy-duty textile manufacturing. It features a high-speed stitching mechanism, adjustable stitch length, and automatic lubrication system.

Product Overview

Industrial Heavy-Duty Solution

This industrial sewing machine is engineered for high-performance manufacturing of heavy textile products. It features a high-speed stitching mechanism combined with an automated lubrication system for consistent output and minimized maintenance. Designed for durability, it effectively handles challenging materials like denim, canvas, and leather, making it an essential asset for demanding production lines.

Technical Capabilities

Core Features

- High-speed stitching mechanism
- Adjustable stitch length
- Automatic lubrication system

Suitable Materials

Denim, Canvas, Leather, Heavy Textiles

Performance

Operational Performance

1 Automatic

Lubrication Type
