

Industrial Sewing Machine Stand

This stationary stand is designed for industrial sewing machines. It features a sturdy metal frame, adjustable height, and a foot pedal mechanism for controlling machine speed.

Product Overview

Industrial-Grade Ergonomic Workstation

This stationary industrial sewing machine stand is engineered for durability and reliability in professional sewing environments. Featuring a robust metal frame construction, it provides the stable foundation necessary for high-speed sewing operations. The inclusion of an adjustable height mechanism and a precision foot pedal system ensures an ergonomic setup for operators, improving productivity and comfort during extended use.

Technical Specifications

Construction Style	Stationary
