

Industrial Sewing Machine Table and Stand

This industrial sewing machine table and stand is designed to support and stabilize sewing machines during operation. It features a robust metal frame with adjustable height settings and is equipped with caster wheels for mobility.

Product Overview

Industrial Sewing Machine Table and Stand

This industrial-grade sewing machine table and stand provide a stable and durable foundation for various professional sewing machine models. Featuring a robust, powder-coated metal frame, the stand is engineered to minimize vibration and ensure smooth, precise stitching performance. With integrated adjustable height settings and mobility via caster wheels, this stand offers both ergonomic utility and flexibility for diverse production environments.

Construction and Design

Frame Material	Powder-coated metal
Mobility	Yes
Key Features	Adjustable Height, Caster Wheels, Robust Frame, Powder Coated

Operational Specifications

Performance Benefits

- Enhanced stability during high-speed operation
- Durable construction for long-term industrial use
- Optimized ergonomic height adjustment

Compatibility	Mounting points compatible with various industrial sewing machine models
