

Industrial Single Output Power Supply

This power supply is designed for industrial applications. It features an AC input selectable by switch and an efficiency of 85%.

Product Overview

Industrial-Grade Power Solution

This industrial single output power supply is engineered for high efficiency, low noise, and minimal ripple, making it an ideal choice for demanding environments. Its compact and lightweight design allows for versatile integration across military, aerospace, and home appliance applications. Equipped with robust overload and overvoltage protections, this unit ensures reliable and stable DC power delivery for your critical systems.

Technical Specifications

Available Output Voltages

- 5V
- 12V
- 15V
- 24V

Input Voltage Range	90-130VAC / 170-265VAC
---------------------	------------------------

Frequency	60 Hz
-----------	-------

Physical Characteristics

Dimensions

199 mm
Length

110 mm
Width

50 mm
Height

Safety & Compliance

Compliance Marks

CE

Built-in Protections	Overload Protection, Overvoltage Protection
----------------------	---

Applications

Primary Applications

- Military
- Aerospace
- Home Appliance Apparatus
