

Industrial Spindle Moulder for Woodworking

This industrial spindle moulder is designed for shaping and profiling wood. It features a robust construction with a large work table, adjustable fences, and a spindle for mounting various cutting tools.

Product Overview

Industrial Precision for Professional Woodworking

This industrial-grade spindle moulder is engineered for high-performance shaping and profiling tasks in professional workshops. The machine features a robust, heavy-duty construction paired with a spacious work table to support consistent, high-accuracy results. Equipped with versatile adjustable fences and integrated safety systems, it offers both reliability and ease of operation for complex woodworking projects.

Technical Specifications

Certifications	CE Certified
Item ID	4031

Operational Features

Safety Equipment

- Emergency stop button
- Dust extraction port

Control & Monitoring

Control Component	Function
Control Panel	Adjust speed and parameters
Pressure Gauge	Monitor performance metrics
