

Industrial Spirit Level with Three Vials

This spirit level is designed for industrial applications requiring high precision. It features a durable aluminum frame and three vials for horizontal, vertical, and 45-degree measurements.

Product Overview

Professional Industrial Spirit Level

This 100cm industrial-grade spirit level is engineered for heavy-duty professional applications. Featuring a robust aluminum frame with a 1.8mm thickness, it offers high durability and exceptional structural integrity. The level is equipped with three high-visibility vials for precise measurements at 90°, 180°, and 45° angles, ensuring reliability across various construction tasks.

Technical Specifications

Accuracy

0.5 mm/m

Accuracy

Length	100 cm
Frame Thickness	1.8 mm
Available Vial Angles	45°, 90°, 180°

Features & Construction

Construction Details

- Heavy duty aluminum frame
- Four milled surfaces
- Humanized rubber handle
- Anti-shock end caps

Recommended Use

Pipe Fitting • Construction • Industrial Use
