

Industrial Steel Hand Truck with Foldable Platform

This industrial hand truck is designed for transporting materials in warehouses and factories. It features a sturdy steel frame, large pneumatic tires, and a fold-down platform.

Product Overview

Industrial-Grade Material Handling

This heavy-duty industrial hand truck is engineered for efficient material transport across warehouses, factories, and demanding industrial environments. Featuring a robust steel frame and large pneumatic tires, it ensures smooth maneuverability even when handling significant loads. The integrated fold-down platform provides a secure base for goods while allowing for compact, space-saving storage when not in use.

Physical Specifications

Frame Material	Steel
Design Features	Foldable Platform, Heavy-Duty, Industrial Grade

Performance

Wheel Type	Pneumatic Tires
