

Industrial Take-Up Stand

This heavy-duty take-up stand is designed for industrial applications. It features a robust steel frame with adjustable height settings and a motor and drive system for controlled winding and unwinding operations.

Product Overview

Industrial Take-Up Stand

This heavy-duty take-up stand is engineered for professional industrial applications in sectors such as wire and cable manufacturing and textile processing. The system features a robust, durable steel frame with adjustable settings to accommodate varying material dimensions. Integrated with a precision motor and drive system, it ensures controlled winding and unwinding operations for enhanced material handling efficiency.

Technical Specifications

Operational Functions

- Controlled winding
- Controlled unwinding
- Adjustable material sizing

Applications

Wire Manufacturing • Cable Production • Textile Processing

Construction

Heavy-duty, Steel frame, Industrial grade
