

Industrial Trapezoidal Steel Buoy

This is a large, metallic buoy with a trapezoidal shape, suitable for industrial or marine applications. Constructed from heavy gauge steel, the buoy provides stability and is easily visible in the water.

Product Overview

Industrial Trapezoidal Steel Buoy

This industrial-grade trapezoidal buoy is engineered for robust marine and industrial applications. Constructed from heavy-gauge steel, it offers exceptional durability and stability in demanding environments. The unit is designed for reliable performance, featuring a distinct trapezoidal geometry that enhances buoyancy and positioning characteristics.

Technical Details

Material Composition	Heavy-gauge steel
Shape	Trapezoidal

Compliance & Identification

Manufacturing Date	2011-08-01
Application Areas	Marine, Industrial, Heavy-Duty
