

Industrial Wall-Mount Fan for Warehouses

This industrial wall fan is designed for heavy-duty air circulation in commercial and industrial environments. Its adjustable tilt and swivel allow for precise directional control.

ADDITIONAL IMAGES

Overview

Industrial Air Circulation Solution

This industrial wall-mount fan is engineered for high-performance air circulation in demanding environments such as warehouses, workshops, and large factory halls. It features a robust, heavy-duty construction with an optimized blade structure to deliver substantial airflow while maintaining low operational noise. Equipped with a pure copper motor and built-in safety mechanisms like overheat and overload protection, this fan is designed for reliability and longevity in continuous use.

Technical Specifications

Motor Type	Pure Copper Motor
Speed Settings	3
Blade Material	Aluminum-Iron
Blade Configuration	2 Blades, 3 Blades, 4 Blades

Safety & Durability

Safety Features

- Over-heat protection
- Overload function
- Powder or chrome safety guard

Base Construction	Heavy-duty cross base
-------------------	-----------------------

Applications

Suitable Environments

Warehouses • Factories • Workshops • Mineral Plants • Large Halls
