

Industrial Wall-Mounted Fan

This heavy-duty electric wall fan is designed for industrial and commercial use. It features a robust metal cage, a powerful motor, and an adjustable mounting bracket.

Overview

Industrial-Grade Air Circulation

This industrial wall-mounted fan is engineered for high-performance ventilation in demanding environments such as workshops, warehouses, and mining establishments. Featuring a durable metal guard and robust aluminum blades, it delivers strong, consistent airflow with wide-angle oscillation. Designed for versatility and safety, it offers three adjustable speed settings to effectively manage temperature and air quality.

Technical Specifications

Available Sizes	16 inch, 18 inch, 20 inch
Number of Blades	3
Velocity Modulations	3
Construction Materials	Metal Guard, Aluminum Blade

Certifications

Safety & Quality Compliance
CB • CE • GS • EMC • LVD • ROHS

Logistics & Capacity

Container Loading Capacity (1pcs/box)

Size	20FCL	40GP	40HQ
