

Industrial Water Chiller CW-5200

This industrial water chiller offers a cooling capacity up to 1.4kW. It is designed for precise temperature control, easy installation, and high energy efficiency.

Overview

Industrial Water Chiller CW-5200

The CW-5200 is a high-performance air-cooled industrial water chiller designed for precise thermal management in demanding environments. It offers a cooling capacity of up to 1.4KW and features dual operating modes, including constant temperature and intelligent temperature control, to suit diverse operational needs. With a temperature control range of 5-35°C, it provides reliable cooling for CO2 lasers, spindles, and solid-state laser equipment.
