

Industrial Water Chiller for CNC and Laser Engraving

This industrial water chiller provides high precision temperature control for cooling CNC and laser engraving machines. It features easy installation and operation, high efficiency, and energy-saving design.

Overview

Precision Cooling Solution

This industrial water chiller is engineered for high-precision temperature control in CNC and laser engraving applications. It offers versatile cooling modes, including constant temperature and intelligent temperature control, ensuring optimal performance for sensitive equipment. Designed for efficiency, the unit is compact and robust, making it a reliable choice for professional industrial environments.

Performance Metrics

Cooling Capacity

1400 W

Cooling Capacity

Temperature Control Range

5-35°C

Control Modes

Constant Temperature, Intelligent Temperature Control

Technical Specifications

Compatible Refrigerants

- R-22
- R-134a
- R-410a

Pump Power Options

- 0.03 KW
- 0.05 KW
- 0.1 KW

Tank Capacity

6 L

Max Flow Rate

10-16 L/min

Max Lift

10-25 M

Physical Dimensions

Weight Specifications

Type	Weight
Net Weight	26 Kg
Gross Weight	29 Kg

Unit Dimensions (L x W x H)	58 x 29 x 47 cm
-----------------------------	-----------------

Packing Dimensions (L x W x H)	70 x 43 x 58 cm
--------------------------------	-----------------

Certifications

Compliance

CE • RoHS
