

Industrial Water Chiller for LED UV Curing

This water chiller is designed to cool Phoseon LED UV curing systems. It provides efficient temperature control with a 1400W cooling capacity.

Overview

Industrial Refrigeration Chiller

This industrial water chiller is engineered for precise temperature control, making it an ideal solution for LED UV curing systems and other industrial equipment requiring reliable thermal regulation. Designed for high efficiency and energy savings, the unit ensures stable operation and longevity for your critical machinery. Its compact footprint and easy installation process allow for seamless integration into existing production environments.

Performance Metrics

Cooling Capacity

1400 W

Cooling Capacity

Max Flow Rate 16 L/min

Max Lift 25 M

Technical Specifications

Tank Capacity 6 L

Refrigerants R-134a, R-410a

Physical Dimensions

Dimensions and Weight

| Metric | Value |
|--------------------------------|-----------------|
| Unit Dimensions (L x W x H) | 58 x 29 x 47 cm |
| Packing Dimensions (L x W x H) | 70 x 43 x 58 cm |
| Net Weight | 26 kg |
| Gross Weight | 29 kg |

Compliance

Certifications

CE • RoHS
