Product Overview

Industrial Heat Exchange Solutions

This industrial-grade water cooler heat exchanger is engineered for high-performance thermal management in heavy-duty machinery. Featuring a robust shell-and-tube design and a durable protective coating, it ensures reliable cooling and operational longevity. The unit is equipped with integrated reservoirs, pressure relief valves, and secure mounting points, making it suitable for demanding industrial applications.

Compatibility and Part Numbers

Compatible Part Numbers

- ZSLG2.8-16-00H
- Z3900414H
- ZSLG1.6-16-00H
- 3655858
- 3011108
- 3050385

Supported Engine Models

4BT, 6BT, 6CT, NTA855, KTA19, KTA38

Shipping and Logistics

Supported Shipping

Air Freight • Sea Freight

Packaging Standard

Neutral carton package with shipping mark
