

Industrial Water Pump for Drainage and Irrigation

This water pump is designed for efficient operation in diverse settings. Its durable construction makes it suitable for both drainage and irrigation applications.

General Overview

Industrial Water Pump

This robust industrial water pump is specifically engineered for high-performance drainage and irrigation applications. Its durable construction ensures reliable operation in demanding environments. Featuring a powerful integrated motor, this unit provides the efficiency required for continuous fluid transfer tasks.

Performance Specifications

Construction Finish

Durable Construction • Blue Painted Finish

Primary Applications

Drainage, Irrigation

Motorized Operation

Yes
