

Industrial Welding Machine

This industrial-grade welding machine is designed for heavy-duty applications. It features adjustable power settings and a portable design with wheels.

Overview

Industrial Welding Capability

This industrial-grade welding machine is engineered for heavy-duty applications in manufacturing and repair environments. It features a robust construction and a portable design equipped with wheels for easy maneuverability across the workshop floor. With adjustable power settings and clearly labeled output terminals, it ensures safe and efficient operation for a wide range of welding tasks.

Technical Specifications

Rated Output Current

- 60
- 125
- 200
- 250
- 300
- 350
- 400

Model Number	BX1-630
Welding Type	AC Arc Welding

Features

Safety Features

Clearly labeled controls • Standardized output terminals

Key Features	Heavy-duty construction, Portable design, Wheeled mobility, Adjustable power settings
