

Industrial Welding Machine

This heavy-duty welding machine is designed for industrial applications. It features adjustable current settings, robust construction with a wheeled base for portability, and a user-friendly control panel, making it suitable for various welding processes and materials.

Product Overview

Industrial Performance

This heavy-duty welding machine is engineered for demanding industrial environments. It features a robust construction and a wheeled base, ensuring excellent portability across factory floors. With an intuitive control panel and adjustable current settings, it offers versatile performance for a wide range of professional welding processes and material applications.

Technical Specifications

Industrial Use

Heavy-duty • Industrial • Professional

Model Number	BX1-400-1
Welding Type	AC ARC Welder
Design Features	Wheeled Base, Portable, Adjustable Current
