

Industrial Wool Washing Machine

This industrial wool washing machine is designed for efficient and thorough cleaning of wool fibers. It features a robust stainless steel drum, heavy-duty motor, and programmable controls for customized washing cycles.

Product Overview

Industrial Wool Washing Machine BX Series

The BX series is a high-performance commercial washing solution designed specifically for heavy-duty wool processing. Featuring a horizontal structure with a high-quality stainless steel drum and frame, these machines offer superior durability and efficiency. They are widely utilized in hotels, laundry facilities, and textile plants for their low noise operation, safety, and consistent performance across a wide capacity range.
