Product Overview

Compact Infant Food Solution

This portable baby blender is designed for preparing fresh and nutritious meals for infants and toddlers. Featuring a split structure for easy disassembly and cleaning, it combines a high-power, low-noise motor with a thickened, wear-resistant glass body. The 3-blade stainless steel assembly ensures a delicate texture, making it an ideal tool for pureeing fruits, vegetables, and other ingredients safely.

Technical Specifications

Capacity	600 ml
Blade Material	304 Stainless Steel
Number of Blades	3
Body Material	Thickened Glass

Features & Benefits

Key Features

- Split structure for easy cleaning
