Product Overview

Versatile Air Shim Set

This 5-piece inflatable air shim set is designed for precision lifting, leveling, and spreading tasks in automotive and general repair environments. Constructed from durable, reinforced materials, the pillows are engineered to withstand high pressure while providing a safe alternative to traditional metal levers and jacks. The set includes a hand pump with a valve system for controlled inflation and deflation, making it ideal for accessing tight spaces like door frames or positioning components during installation.

Technical Specifications

Set Composition

- 5-piece inflatable pillow set
- Includes hand pump with valve
- Includes pressure gauge

Max Pressure Limit

300 PSI

Maximum Pressure

Applications

Primary Applications

Automotive repair, Door frame spreading, Emergency vehicle opening, Leveling and positioning, General installation

Safety & Compliance

Safety Warnings

Do not exceed 300 PSI • Use with caution • Professional use only
