

Infrared Surveillance Camera

This high-resolution CCD camera is designed for surveillance and security applications. Infrared LEDs provide clear images in low-light conditions, and its durable housing allows for indoor or outdoor use.

Overview

High-Performance Surveillance

This high-resolution black and white CCD camera is engineered for reliable security and surveillance monitoring. Equipped with integrated infrared LEDs, it ensures clear visibility even in low-light environments. Its durable housing is built to withstand varied conditions, making it suitable for both indoor and outdoor installations.

Technical Specifications

Deployment Environment

- Indoor
- Outdoor

Sensor Type	CCD
Imaging Mode	Black and White
Night Vision	Yes
Key Features	Infrared LEDs, High-Resolution, Durable Housing
